Dignity and respect
Dignity and respect

We want all people to enjoy dignity and respect in all aspects of their lives, regardless of their age or needs.

Talk to us about:
- Dignity in care
- Respect for all
- You’re Welcome - making health services young people friendly
- Mental health stigmas
Dignity and respect

Promoting Dignity in Care

We aim to raise awareness and promote dignity in care for all people.

We are doing this by:
• Holding cross-organisational monthly forums to discuss dignity issues and ways to improve them
• Devising a multi-organisational dignity policy
• Developing dignity training strategies
• Building dignity awareness into everything we do – from staff inductions to appraisals
• Working with other organisations who encounter people who may face dignity issues, to build awareness of their role and its relation to dignity in care

You can help us by:
• Enrolling your organisation in the dignity forum
• Promoting dignity for all
• Signing up as a dignity champion, and encouraging your staff to do likewise
